Joel M. Preminger DMD

Just For Kids!!!

We are happy to welcome your family to our practice and pleased with the interest you are showing in your child's dental health. Our specialty is pediatric dentistry and we are dedicated to serving children! Our offices are clean and bright! Our staff is trained to help children enjoy their dental visits. We want your child to remember each dental visit as a pleasant, positive learning experience.

Our Philosophy

Our goals are to make children feel comfortable in a setting designed especially for them and to provide optimum oral health care. These goals require the cooperation of the child, parent and the dentist. We believe that prevention of a disease is far more enjoyable, less costly, and more comfortable for all concerned. Preventive maintenance can keep dental problems to a minimum. Dental health also depends upon good habits such as proper tooth brushing, use of dental floss, proper diet and regular visits to the dentist.

Scheduling

For your child's first visit we ask that you arrive 10 minutes prior to your appointment time in order to complete the necessary paperwork if you have not already completed it at home. We try hard to maintain our schedule and remain on time. However, an occasional emergency may cause delay on our part. When unable to keep an appointment, 24 hours notice is highly appreciated.

Examination

At the examination appointment, it is important that we get acquainted with your child. We will evaluate his or her individual needs and what you desire concerning treatment. It may be necessary to take detailed x-rays during this appointment. Our findings and treatment recommendations will then be discussed. We will provide you with an estimate of the length of treatment and the fees involved.

Emergencies

If an emergency should arise, we have a 24 hour phone service which will give you instructions for reaching the doctor. We are always on call and available to serve you.

Dental Insurance

We currently do not accept any dental insurance but will be happy submit the claim on the patient's behalf. All reimbursement will be paid directly to the patient. You must be familiar with your insurance benefits.

Our office is committed and dedicated to the practice of preventive dentistry for children. The best dental service is based on a friendly, mutual understanding between doctor and patient. If any questions or concerns arise, please bring them to our attention immediately.

Thank you for allowing us to serve your child's dental needs. We are delighted to have you in our practice! For additional information on our practice, please visit our website at www.PremingerPediatricDentistry.com.

Sincerely,
